

[illegible]

Technical drawing showing the connection between a wall and a floor slab, detailing reinforcement bars and dimensions.

**Wall Section (Left):**

- Reinforcement: SC 318
- Dimensions:  $\varnothing 110$ ,  $V\varnothing 90$ ,  $P\varnothing -$
- Label: ISOLATO

**Floor Slab Section (Right):**

- Reinforcement: SC 318
- Dimensions:  $\varnothing 50$ ,  $V\varnothing 0.39$ ,  $P\varnothing -$
- Label: ISOLATO

**Reinforcement Details:**

- Vertical reinforcement bar: SC 318,  $\varnothing 50$ ,  $V\varnothing 0.39$ ,  $P\varnothing -$
- Horizontal reinforcement bar: SC 318,  $\varnothing 42$
- Horizontal reinforcement bar: SC 318,  $\varnothing 38$
- Horizontal reinforcement bar: SC 318,  $\varnothing 62$

**Dimensions and Notes:**

- Wall thickness:  $\frac{80+80}{210}$
- Floor slab thickness:  $\frac{80+80}{210}$
- Reinforcement spacing:  $\frac{80}{210}$
- Reinforcement diameter:  $\varnothing 22 \times 1.5$
- Reinforcement diameter:  $\varnothing 22 \times 1.5$

Technical drawing of a mechanical assembly, likely a pump or motor component, showing a vertical shaft and its supporting structure. The drawing includes dimensions, material specifications, and labels for different parts.

**Top Section:**

- Material specification:  $3-T$  033
- Dimensions:  $80 \pm 80$  210
- Labels:  $P\emptyset -$ ,  $ISOLATO$ ,  $3-T$  047,  $ISOLATO$ ,  $3-T$  042

**Shaft and Bearings:**

- Material specification:  $SC 318$   $S\emptyset 50$  039
- Dimensions:  $120$  210
- Labels:  $P\emptyset -$ ,  $3-T$  038,  $3-T$  062

**Bottom Section:**

- Material specification:  $SC 318$   $S\emptyset 50$
- Dimensions:  $120$  210
- Labels:  $P\emptyset -$ ,  $3-T$  038,  $3-T$  062

**Dimensions and Notes:**

- $x1.2$  (repeated twice)
- $Afs \ \emptyset 22 \times 1.5$
- $Acs \ \emptyset 22 \times 1.5$
