

CURRICULUM VITAE

Marco Bozzali MD

*Department of Neuroscience
Brighton & Sussex Medical School
University of Sussex
Falmer, Brighton, BN1 9RR, UK
Tel. +44 (0) 1273-873509
Email: m.bozzali@bsms.ac.uk*

*Neuroimaging Laboratory
Fondazione Santa Lucia IRCCS
Via Ardeatina 306
00179-Rome, Italy
Tel. +39 (0)06-5150-1324
Email: m.bozzali@hsantalucia.it*

DATI PERSONALI

Consapevole delle pene previste agli Artt. 75 e 76 del DPR 26/12/2000 n. 455 e s.m.i. per mendaci dichiarazioni e falsità in atti ai sensi dell'Art. 46 del suddetto DPR, dichiaro quanto segue:

LINGUE

Italiano madrelingua

Inglese ottimo livello

INCARICHI LAVORATIVI ATTUALI

1. Posizione a tempo indeterminato di "Senior Lecturer in Neurology" presso la "Brighton and Sussex Medical School", "University of Sussex" e "Honorary Consultant" presso il "Brighton and Sussex University Hospitals NHS Trust", East Sussex, Regno Unito. (<https://www.bsms.ac.uk/about/contact-us/staff/dr-marco-bozzali.aspx>)
2. Dirigente Medico a tempo indeterminato (part-time) presso l'IRCCS "Fondazione Santa Lucia" di Roma, con incarico di direzione della Sezione Clinical Science del Laboratorio di Neuroimmagini. (<https://www.hsantalucia.it/cv/marco-bozzali-medico>)

FORMAZIONE E QUALIFICHE ACCADEMICHE

2016 "Senior Lecturer in Neurology" (*equivalente a Professore Associato* secondo il Decreto Ministeriale 2 maggio 2011 n. 236, pubblicato nella Gazzetta Ufficiale del 21 settembre 2011 n. 220) presso la "Brighton and Sussex Medical School, University of Sussex (Brighton, Regno Unito).

2014 Conseguimento dell'abilitazione nazionale a professore di II fascia per il settore disciplinare D6/06 ai sensi dell'art. 16 della Legge 240/2010. Abilitazione valida fino al 3/2/2020.

2003 Abilitazione all'esercizio della professione medica nel Regno Unito, con iscrizione al General Medical Council (GMC) e al registro degli specialisti in Neurologia.

2003 Conseguimento del diploma di Specializzazione in Neurologia presso l'Università degli Studi di Milano, con pieni voti (70/70) e lode, discutendo la tesi sperimentale intitolata "Demenza a Corpi di Lewy: Studio in vivo mediante Tecniche Avanzate di Risonanza Magnetica Strutturale".

1997 Conseguimento dell'abilitazione all'esercizio della professione di Medico Chirurgo presso l'Università degli Studi di Milano.

1997 Conseguimento del diploma di laurea in Medicina e Chirurgia presso l'Università degli Studi di Milano con pieni voti (110/110), discutendo la tesi sperimentale dal titolo "Spettroscopia Funzionale a Risonanza Magnetica della Corteccia Visiva".

1989 Conseguimento del diploma di Maturità classica presso il Liceo Ginnasio Paolo Sarpi di Bergamo.

ESPERIENZA PROFESSIONALE

(A) ATTIVITA' CLINICO-ASSISTENZIALE

2017-Oggi

Contratto di "Honorary Consultant in Neurology" a tempo indeterminato presso il "Brighton and Sussex University Hospitals NHS Trust". Attività specifiche:

1. Direzione del Servizio Sclerosi Multipla presso il Princess Royal Hospital, Heywards Heat (centro coordinatore "Hub centre") a cui afferiscono 3 centri "spoke" (Eastbourne, Hastings and Worthing);
2. Svolgimento di cliniche specialistiche settimanali per la Sclerosi Multipla;
3. Svolgimento di clinica specialistica, con cadenza mensile, per le demenze;
4. Consulenza neurologica, con cadenza settimanale, presso il Royal Sussex County Hospital, Brighton;
5. Consulenza Neurologica "on-call", per l'intera area del Sussex, tre settimane all'anno;
6. Responsabilità di trial clinici presso la "Clinical Research Facility" (CIRU) del "Royal Sussex County Hospital" di Brighton.

Nel Centro Sclerosi Multipla, da me attualmente diretto, afferiscono circa 1500 pazienti, di cui 2/3 in trattamento con farmaci "disease modifying" di prima (orali e iniettabili) o seconda linea (i.e., Fingolimod, Natalizumab, Alemtuzumab, Cladribina, Ocrelizumab).

Il Centro Sclerosi Multipla si compone di 2 neurologi specialisti in sclerosi multipla, 3 infermieri specialisti, personale amministrativo e 6 infermieri sul territorio ("community MS nurses"). Il Centro da me diretto, in qualità di centro "hub" per l'area del Sussex, ha la responsabilità di coordinare "meeting" multidisciplinari, a cadenza settimanale, aventi lo scopo di discutere e approvare le decisioni terapeutiche (inizio terapia, cambio di terapia, e "therapy escalation") relative ai pazienti afferenti sia al centro "hub" che ai centri "spoke", come previsto da "NHS England".

2017-Oggi

Contratto di Dirigente Medico a tempo indeterminato (part-time) presso l'IRCCS "Fondazione Santa Lucia" di Roma con svolgimento di attività ambulatoriale, articolata in ambulatorio specialistico per la Sclerosi Multipla e ambulatorio specialistico per le Demenze.

2006-2017

Contratto di Dirigente Medico a tempo indeterminato (tempo pieno) presso l'IRCCS "Fondazione Santa Lucia" di Roma, per lo svolgimento di attività clinico-assistenziale (ruolo di Aiuto Reparto) presso il reparto di Neurologia Clinica e Comportamentale (attualmente diretto dal Dr. Ugo Nocentini).

Responsabilità cliniche includevano:

1. la supervisione di due medici di reparto (operanti su 12 letti), di medici frequentatori e di specializzandi in neurologia;
2. lo svolgimento di attività ambulatoriale, articolata in neurologia generale; ambulatorio specialistico per la Sclerosi Multipla; ambulatorio specialistico per le Demenze; ambulatorio per i disturbi neurovegetativi.

2004-2006

Contratto di Assistente Neurologo ('Honorary Appointment as Clinical Assistant') presso il Dipartimento di Neurologia del "National Hospital for Neurology and Neurosurgery", University College London, London, UK. Tra le principali attività figurano il lavoro svolto all'interno della Clinica per la Sclerosi Multipla (diretta dal Prof. A.J. Thompson) e del National Centre for the Epilepsy (Chalfont St.Peter, UK).

2001-2003

Attività clinica svolta presso il Dipartimento di Neuroriabilitazione dell' IRCCS Fondazione Don Carlo Gnocchi ONLUS di Milano, comprensiva di: attività di reparto; attività di Day Hospital e ambulatoriale (neurologia generale).

1998-2001

Attività clinica svolta presso il Dipartimento di Neurologia dell'Ospedale San Raffaele di Milano, comprensiva di: attività di reparto, ambulatorio sclerosi multipla e partecipazione a trial clinici farmacologici nell'ambito della sclerosi multipla.

1995-1998

Tirocinio pratico ospedaliero presso la Clinica Neurologica Universitaria dell'Ospedale Maggiore di Milano.

(B) ATTIVITA DI RICERCA

2017-oggi

Costituzione di un gruppo di ricerca presso il Dipartimento di Neuroscienze della University of Sussex (UK) in collaborazione con il Clinical Imaging Sciences Centre (CISC) della University of Sussex.

Il programma di ricerca, attualmente in via di sviluppo, si incentra sullo studio dei meccanismi di infiammazione e neurodegenerazione nella sclerosi multipla, nelle demenze neurodegenerative e nella sclerosi laterale ammiotrofica. In collaborazione con laboratori di ricerca di base (genetica-farmacologia-analisi liquorali-modelli animali) e con la cliniche specialistiche ospedaliere, la ricerca da me diretta si incentra sull'utilizzo di tecniche avanzate di neuroimmagini (Risonanza magnetica nucleare e PET) e di neurofisiologia (Transcranial Magnetic Stimulation –TMS- ed EEG) per la comprensione dei meccanismi fisiopatologici di malattia. La combinazione di TMS e tecniche di neurimmagini si pone anche l'obiettivo di individuare e testare protocolli di intervento non farmacologico per il trattamento dei disturbi cognitivi nelle demenze e dei sintomi motori e non motori (e.g., fatica, decadimento cognitivo) nella sclerosi multipla.

2006-oggi

Direzione della sezione 'Clinical Science' del Laboratorio di Neuroimmagini dell'IRCCS Fondazione Santa Lucia di Roma.

Sezione di laboratorio primariamente dedicata all'applicazione di tecniche quantitative di 'neuroimaging' per lo studio di patologie di interesse sia neurologico che psichiatrico. Principali filoni di ricerca includono lo studio dei decadimenti cognitivi di tipo neurodegenerativo e delle malattie infiammatorie-demielinizzanti del sistema nervoso centrale. Altre linee di ricerca attive: studio delle disfunzioni del sistema nervoso autonomo, del coinvolgimento cerebrale in pazienti con malattie multisistemiche, di disordini psichiatrici. Filoni di carattere neurofisiologico e metodologico includono l'utilizzo combinato di tecniche di 'neuroimaging' quantitativo (sia strutturale che funzionale) con tecniche neurofisiologiche (e.g., TMS; EEG). Lo staff del gruppo di ricerca da me diretto include: medici, neuropsicologi e fisici di Risonanza Magnetica. Vengono inoltre periodicamente selezionati e supervisionati tesisti e dottorandi in varie discipline.

2004-2005

Incarico di collaborazione professionale con rapporto di lavoro autonomo per attività di ricerca presso la Fondazione Don Carlo Gnocchi ONLUS di Milano.

Incarico inserito nell'ambito della ricerca finalizzata (2002 F022041-31504) dal titolo "Ruolo dei Meccanismi citotossici nelle patologie neurodegenerative" e della ricerca finalizzata (2003 F031701-31504) dal titolo "Correlazioni clinico-biologiche nella Malattia di Parkinson"

2003-2006

Contratto in qualità di "Clinical Research Fellow" (sponsorizzato dallo "Wellcome Trust") presso l'*Institute of Cognitive Neuroscience*, University College of London - UK con un progetto dal titolo "Reconciling imaging and neuropsychological studies in the control of memory processes". Tale progetto prevedeva:

1. lo studio in vivo del controllo colinergico della rievocazione mnestica ('recollection/familiarity') in soggetti sani mediante tecnica di 'Functional Magnetic Resonance Imaging' con somministrazione endovenosa di scopolamina;
2. lo studio in vivo, mediante tecniche convenzionali e non convenzionali ('Voxel based morphometry'; 'Diffusion Tensor Imaging'; 'Diffusion Tensor Imaging-based Tractography') di Risonanza Magnetica strutturale, di pazienti portatori di lesioni focali a carico dei lobi frontali, con i seguenti obiettivi: individuazione di correlazioni tra misure quantitative di danno tissutale (sia macro- che microscopico, e misure psicometriche) e individuazione di possibili compiti neuropsicologici ('task') da impiegare in futuri studi di Risonanza Magnetica Funzionale tesi a validare modelli cognitivi teorici.

2003 Incarico professionale a scopo di ricerca presso il reparto di Neuroradiologia dell'Ospedale San Raffaele di Milano, in merito ad un programma dal titolo "Tecniche avanzate di Risonanza Magnetica applicate alla malattia di Alzheimer".

1998-2003

Ricerca nell'ambito della Risonanza Magnetica Nucleare in vivo presso la "Neuroimaging Research Unit" del Dipartimento di Neurologia dell'Ospedale San Raffaele di Milano.

Tale attività si è basata principalmente sull'utilizzo di tecniche di Risonanza Magnetica non convenzionali (Spettroscopia Protonica; 'Diffusion Tensor Imaging'; 'Magnetization Transfer Imaging') applicate alla Sclerosi Multipla, alle Demenze e ad altre patologie di interesse neurologico. E' inoltre degna di nota la partecipazione all'acquisizione e all'analisi di dati nell'ambito di 'trial' clinici farmacologici nella sclerosi multipla.

1999 Partecipazione in qualità di 'investigator' al trial farmacologico "Coral", promosso dalla TEVA *Pharmaceutical Industries*, finalizzato alla valutazione, mediante criteri clinici e di Risonanza Magnetica, dell'efficacia del Copolimero I somministrato per via orale nel trattamento della sclerosi multipla.

1997 Partecipazione allo staff di ricerca per il progetto promosso e finanziato dall'Organizzazione Telethon, intitolato *"Brain energetics under resting and activated conditions in mitochondrial myopathies without clinical signs of central nervous system involvement: a magnetic resonance spectroscopy study"*.

1995-1998

Ricerca nell'ambito della Spettroscopia a Risonanza Magnetica Nucleare in vivo presso la Clinica Neurologica Universitaria dell'Ospedale Maggiore di Milano, principalmente indirizzata allo studio dell'energetica cerebrale e muscolare con applicazione clinica a pazienti affetti da malattie mitocondriali.

FINANZIAMENTI OTTENUTI

12/2017-12/2018 Finanziamento dal "Centre for regenerative medicine and devices (CRMD) Pump priming funding scheme", progetto intitolato : "Objective and Subjective Assessment of fatigue in multiple sclerosis" (**€7000; PI: Cercignani, Bozzali co-applicant**).

03/2017-03/2020 Finanziamento ottenuto dal "Sussex Dementia Doctoral Training Centre PhD Studentship", intitolato "Mapping connectivity changes across AD progression using Bayesian modelling: the impact of ApoE4 and environmental factors" (**£ 84.863; PI: Cercignani, Bozzali Co-applicant**).

05/2016-05/2019 Finanziamento ottenuto dal Ministero Italiano della Salute nell'ambito del programma 'Ricerca Finalizzata' 2011, per un progetto della durata di tre anni, intitolato "A novel structural and functional MRI-derived index of axonal myelination: application to MS and correlation with neurophysiology". (**261.648 Euro; PI: Cercignani; Bozzali co-applicant**).

Progetto selezionato attraverso un processo di revisione eseguito dal "Center For Scientific Review, National Institutes of Health (NIH-CSR), United States".

05/2015-05/2016 Finanziamento ottenuto da Fondazione Roma-Terzo settore, intitolato "Indagine delle caratteristiche neuroanatomiche, cognitive e comportamentali della sindrome di Ehlers-Danlos, tipo ipermobile [JHS/EDS-HT]: studio RM quantitativo con implicazioni per la diagnosi ed il trattamento". (**50.000 Euro; PI: Bozzali**).

01/2014-01/2017 Finanziamento ottenuto dal Ministero Italiano della Salute nell'ambito del programma 'Ricerca di Rete' 2011, intitolato "Functional and molecular neuroimaging for AD diagnosis in predementia phase and recognition of atypical forms" (**600.000 Euro; PI: Perani; Bozzali co-applicant**).

01/2014-01/2017 Finanziamento ottenuto dal Ministero Italiano della Salute nell'ambito del programma 'Ricerca Finalizzata' 2011, per un progetto della durata di tre anni, intitolato "Morphofunctional visual pathways evaluation in multiple sclerosis: possible identification of neurodegenerative bio-markers" (**€ 135.000; PI: Parisi; Bozzali co-applicant**).

Questo progetto è stato selezionato attraverso un processo di revisione eseguito dal "Center For Scientific Review, National Institutes of Health (NIH-CSR), United States".

01/2014-01/2017 Finanziamento ottenuto dal Ministero Italiano della Salute nell'ambito del programma 'Ricerca Finalizzata' 2011, per un progetto di ricerca della durata di tre anni, intitolato "Promoting motor re-learning after stroke by non- invasive cerebellar stimulation: a novel integrated TMS/EEG approach". (**336.029 Euro; PI: Koch; Bozzali co-applicant**).

Questo progetto è stato selezionato attraverso un processo di revisione eseguito dal "Center For Scientific Review, National Institutes of Health (NIH-CSR), United States".

05/2012-05/2015 Finanziamento ottenuto dal Ministero Italiano della Salute nell'ambito del programma 'Ricerca Finalizzata' 2010, per un progetto di ricerca della durata di tre anni, intitolato " "Repetitive TMS

modulation of the default mode network to clarify the pathophysiology of Alzheimer's disease and prompt a new therapeutic perspective" (418.800 Euro; PI: Bozzali; Koch co-applicant).

Questo progetto è stato selezionato attraverso un processo di revisione eseguito dal "Center For Scientific Review, National Institutes of Health (NIH-CSR), United States".

12/2011-11/2014 Finanziamento ottenuto dal Ministero Italiano della Salute nell'ambito del programma 'Ricerca Finalizzata' 2009, per un progetto di ricerca della durata di tre anni, intitolato "Cognitive reserve, brain reserve, and neuroplasticity in Alzheimer's disease".

(500.000 Euro; PI: Bozzali).

Questo progetto è stato selezionato attraverso un processo di revisione eseguito dal "Center For Scientific Review, National Institutes of Health (NIH-CSR), United States".

09/2010-08/2013 Finanziamento ottenuto dal Ministero Italiano della Salute nell'ambito del programma 'Giovani Ricercatori 2008', per un progetto di ricerca della durata di tre anni, intitolato "A longitudinal MRI investigation of patients with mild cognitive impairment using structural and functional techniques to identify biomarkers of diagnostic and prognostic value". (439.000 Euro; PI: Bozzali)

Questo progetto di ricerca è stato classificato ventiduesimo su 997 progetti presentati (numero totale di progetti finanziati=40), attraverso un processo di revisione eseguito dal "Center For Scientific Review, National Institutes of Health (NIH-CSR), United States".

07/2007-06/2009 Finanziamento ottenuto dal Ministero Italiano della Salute per lo svolgimento di un programma di ricerca intitolato: "The role of structural and functional non-conventional MR techniques in the early diagnosis of the two main forms of degenerative dementia: Alzheimer's disease and dementia with Lewy bodies".

(262.000 Euro; PI: Bozzali)

CLINICAL TRIALS ATTIVI

- MS STAT 2: Clinical trial randomizzato di fase 3 in doppio cieco per investigare l'efficacia di Simvastatin rispetto a placebo in pazienti con sclerosi multipla secondariamente progressiva con lento accumulo di disabilità. (PI: Bozzali)
- AFFINITY: Clinical trial randomizzato controllato da placebo in doppio cieco in pazienti con sclerosi multipla "relapsing-remitting" per valutare l'efficacia nel promuovere la rimielinizzazione e la sicurezza di BIIB033 come terapia aggiuntiva a terapia immunomodulante o immunodepressiva. (PI: Bozzali)
- LemQol: Studio prospettico osservazionale per valutare la qualità di vita in pazienti con sclerosi multipla "relapsing-remitting" trattati con Lemtrada (Alemtuzumab). (Co-PI: Bozzali)
- LemPass: Studio prospettico multicentrico osservazionale per la valutazione del profilo di sicurezza a lungo termine di Lemtrada (Alemtuzumab) in pazienti con sclerosi multipla "relapsing-remitting". (Co-PI: Bozzali)
- C9ORF72 – Studio di fase 1 per valutare sicurezza, tollerabilità e caratteristiche farmacocinetiche di BIIB078 somministrato (per la prima volta nell'uomo) per via intratecale in pazienti con Sclerosi Laterale Amiotrofica variante C9ORF72 (Co-PI: Bozzali)

PREMI

- 2012 Premio per la migliore presentazione orale al congresso scientifico "Giornate Neurologiche Torinesi", Torino (2.000 Euro)
- 2008 Assegnazione del premio per la presentazione dei migliori poster (nella giornata del 21 ottobre) al XXXIX congresso della Società Italiana di Neurologia (500 Euro).
- 2001 Assegnazione del premio "De Visart" "con il merito di aver fatto progredire le ricerche scientifiche tanto da ottenere la possibilità di cure con effetti favorevoli alla guarigione della sclerosi a placche" (Lire 5.000.000 = 2500 Euro)

ATTIVITA' EDITORIALE

Dal 2018 'Associated Editor' per la rivista scientifica *Frontiers Cellular Neuroscience*.

Dal 2013 'Associated Editor' per la rivista scientifica *Functional Neurology*.

Dal 2012 'Associated Editor' per la rivista scientifica *BioMed Research International*.

Dal 2010 'Senior Associated Editor' per la rivista scientifica *Journal of Alzheimer's Disease*

ATTIVITA DI REFERAGGIO

Svolgo attività di 'Reviewer' per le seguenti riviste scientifiche internazionali:

Aging Health, The American Journal of Psychiatry, Annals of Neurology, Biological Psychiatry, Brain, Cerebral cortex, Cortex, European Journal of Neurology, European Journal of Paediatric Neurology, European Journal of Radiology, Functional Neurology, Human Brain Mapping, International Psychogeriatrics, Journal of Alzheimer's Disease, Journal of Neuroimaging, Journal of the Neurological Sciences, Journal of Neurology, Journal of Neurology Neurosurgery and Psychiatry, Journal of Psychiatry and Neuroscience, The Journal of Neuroscience, Lancet Neurology, MAGMA, Movement Disorders, Multiple Sclerosis J, Neurobiology of Aging, Neuroimage, Neurology, Neuropsychologia, Neuropsychology, Neuroscience Letters, NMR in Biomedicine, Parkinsonism and Related Disorders, PLoS ONE, Progress in Neuro Psychopharmacology & Biological Psychiatry, Stress.

Inoltre, svolgo con continuità l'attività di referaggio per Enti finanziatori di ricerca estera quali :
e.g., Horizon 2020, MS Society UK, Catalan Agency for Health Technology, Theleton France.

ATTIVITA' ALL'INTERNO DI SOCIETA' SCIENTIFICHE

2018-2020

Membro del Consiglio Direttivo (Revisore dei Conti) della Associazione Autonoma Aderente alla SIN per le Demenze (SINDEM).

2016-2018

Membro del Consiglio Direttivo (Consigliere) della Associazione Autonoma Aderente alla SIN per le Demenze (SINDEM).

2014-2016

Membro del Consiglio Direttivo (Tesoriere) della Associazione Autonoma Aderente alla SIN per le Demenze (SINDEM).

2012-2014

Membro del Consiglio Direttivo (Consigliere) della Associazione Autonoma Aderente alla SIN per le Demenze (SINDEM). Tra le numerose attività svolte, da sottolineare la costituzione della Sezione Giovanile di SINDEM, denominata "SINDEM4Juniors". Tale sezione svolge svariate attività scientifiche, tra cui l'organizzazione annuale di un congresso internazionale incentrato sulle demenze e altre patologie neurodegenerative.

2012-2018

Membro del Consiglio Direttivo dell' "Italian Chapter of the International Society of Magnetic Resonance in Medicine (ISMRM)".

GRUPPI DI STUDIO E NETWORK

2016-Oggi Membro del Gruppo di Studio SINDem sulla Malattia a corpi diffusi di Lewy.

- 2016 Partecipazione in qualità di esperto alla consensus conference per la definizione delle linee guida per la gestione clinica dei pazienti adulti affetti da Distrofia Miotonica tipo 1, Miami, USA (manoscritto in press su *Neurology Clinical Practice*)
- 2016-Oggi Membro della Sezione Neuroimaging della Rete di Neuroscienze degli IRCCS, responsabile del settore demenze.
- 2016 Partecipazione alla Consensus Conference internazionale per la definizione delle raccomandazioni cliniche in pazienti adulti affetti da Distrofia Miotonica di Steinert tipo 1. Miami, USA. Queste linee guida sulla gestione dei pazienti sono in corso di pubblicazione su *Neurology – Clinical Practise*.
- 2014-2019 Partecipazione all'work-pakage 2" del progetto ministeriale di Rete Alzheimer finanziato dal Ministero della Salute.

ATTIVITA' DIDATTICA

- 2018-oggi Membro del Collegio del Dottorato in Neuroscienze del Comportamento, Università La Sapienza, Roma.
- 2017-oggi Incarichi di docenza in diversi moduli didattici della scuola di medicina -"undergraduate students"- presso la *Brighton and Sussex Medical School* (BSMS). La docenza include lezioni formali ed esercitazioni pratiche in aula con pazienti (semeiotica neurologica, diagnosi differenziale).
- 2014-oggi Incarico di insegnamento nell'ambito del Corso di Laurea Specialistica in Logopedia, presso l'Università degli Studi Roma "Tor Vergata".
- 2010-2013 Incarico di insegnamento nell'ambito del Master di I livello in Riabilitazione Neuropsicologica del Cerebroleso Adulto, presso l'Università degli Studi Roma "Tor Vergata".
- 2010-2013 Incarico di insegnamento nell'ambito del Corso di Laurea Specialistica intitolato "Spettroscopia a radiofrequenza ed imaging NMR" (<https://sites.google.com/site/nmrsapienza/home/docenti>).
- 2013 Coordinamento del corso e lezione intitolata "Valutazione qualitativa e quantitative dell'imaging strutturale e ruolo del DAT-scan: presentazione e discussione di immagini", all'interno della "Summer School" promossa dall'Associazione Autonoma Aderente alla SIN per le Demenze (SINDEM).
- 2013 Lezione intitolata "Le nuove tecniche di imaging" all'interno della "Summer School" intitolata "Alzheimer: medicina, filosofia, letteratura", organizzata dall'Associazione Italiana di Psicogeriatrica".
- 2007 Coordinazione scientifica e partecipazione in qualità di docente al "Corso avanzato di: neuroimaging nelle demenze dalla diagnostica alla fisiopatologia", svoltosi a Roma presso la Fondazione Santa Lucia.
- 2001-2002 Docente a numerosi corsi residenziali teorico-pratici dal titolo "La Risonanza Magnetica nello studio della sclerosi multipla", presso l'Unità di Neuroimaging quantitativo dell'Ospedale San Raffaele di Milano.

SUPERVISIONE TESI

- 2013-oggi Supervisore di 4 specializzandi in Neurologia (Università di Roma Tor Vergata) per lo svolgimento di attività di ricerca presso il Laboratorio di Neuroimmagini della Fondazione Santalucia, finalizzata alla produzione della tesi di specialità.

- a.a. 2010-13 Supervisore per il dottorato di ricerca in Neuropsicologia del Dott. Mario Torso (XXIV ciclo aderente alla Scuola di Dottorato in Neuroscienze), Università Cattolica di Roma.
- a.a. 2010-13 Supervisore per il dottorato di ricerca in Neuroscienze (PhD) della Dott.ssa Chiara Mastropasqua, eseguito presso l'Università degli Studi di Trieste.
- a.a. 2009-11 Supervisore per il dottorato di ricerca in Neuropsicologia della Dott.ssa Barbara Basile (XXIV ciclo aderente alla Scuola di Dottorato in Neuroscienze), Università Cattolica di Roma.
- 2011 Esaminatore esterno per la tesi di PhD della Dott.ssa Nadia Borlase, intitolata "THE THALAMUS IN PARKINSON'S DISEASE: A multimodal investigation of thalamic involvement in cognitive impairment", Department of Psychology, University of Canterbury, Canterbury, New Zealand.
- a.a. 2008-10 Supervisore per il dottorato di ricerca della Dott.ssa Barbara Spanò in Scienze Neurobiologiche cliniche (XXII ciclo Scuola di neuroscienze-MED/26-neurologia) presso l'Università degli Studi di Messina.
- a.a. 2009-10 Correlatore per la tesi di laurea specialistica in Neuroscienze, intitolata "Risonanza Magnetica Quantitative per lo studio del danno cognitivo nella sclerosi multipla", discussa da Chiara Mastropasqua presso l'Università degli Studi di Trieste (Facoltà di Scienze Matematiche e Fisiche Naturali).
- a.a. 2009-10 Correlatore per la tesi di laurea specialistica in Neuroscienze, intitolata "The role of brain ferritin in the pathophysiology of the main form of dementia: Alzheimer's disease", discussa da Valentina Battistoni presso l'Università degli Studi di Trieste (Facoltà di Scienze Matematiche e Fisiche Naturali).
- 2008 Esaminatore esterno per la tesi di "PhD" intitolata "Characterization of changes in brain structures and functionality following ischemic stroke by advanced MRI methods", presentata da Michal Kafri presso la "Sackler School of Medicine" di "Tel-Aviv University".

BREVE SELEZIONE DI LETTURE SU INVITO

- 04/2018 Moderatore della sessione "Imaging e Neurofisiologia" e Lettura intitolata "Neuroimaging quantitativo nei decadimenti cognitivi tenuta al XII Convegno Nazionale SINDEM tenutosi a Firenze.
- 02/2018 Lettura intitolata "Functional MRI in DLB" all'International Meeting "Lewy Body Demetia, new clinical and diagnostic perspectives, Chieti, Italia.
- 04/2017 Lettura intitolata "Neuroimaging: a powerful tool for translational research inneurology, alla "South England Neuroscience Association (SENA)", Brighton, UK.10/2015 Lettura intitolata "L'atrofia cerebrale nelle neuroimmagini" tenuta all'interno del XLVI Congresso della Società Italiana di Neurologia, tenutosi a Genova.
- 10/2015 Lettura intitolata "Metodologie per lo studio della Neuroeconomia: cosa tiene ancora 20 anni dopo?" within the XLVI Scientific Meeting of the Italian Society of Neurology (SIN), at Genova, Italy.
- 03/2015 Lettura intitolata "L'utilità della PET per la beta amiloide attraverso casi clinici", tenuta all'interno del Simposio "Un nuovo biomarker per la diagnosi della malattia di Alzheimer"- X° Congresso della Società Neurologica Italiana per lo Studio delle Demenze (SINDEM), tenutosi a Genova.
- 03/2015 Lettura intitolata "The Impact of Cognitive Reserve on Brain Functional Connectivity in Alzheimer's disease" – X° Congresso SINDEM tenutosi a Genova.

- 12/2014 Lettura intitolata "Neuroimaging" al DM-CNS 5th Workshop, tenutosi a Milano.
- 10/2014 Lezione intitolata "Il ruolo del neuroimaging nella diagnosi tempestiva della Malattia di Alzheimer", tenuta all'interno dello workshop "Le malattie di Alzheimer" durante il XLV Congresso della Società Italiana di Neurologia, tenutosi a Cagliari.
- 09/2014 Lezione intitolata "Definizione di responder e non-responder" all'interno del corso "Risonanza magnetica e prognosi nel paziente con sclerosi multipla" promosso dall'Accademia del Saper Fare, ACCMED (http://www.accmed.org/index.php?option=com_content&view=article&id=428&itemid=184)
- 03/2014 Lezione intitolata "Anatomical connectivity in Alzheimer's disease patients" nell'ambito della sessione intitolata "NiBS – Aging and dementia – when cortical efficacy matters" del "30th International Congress of Clinical Neurophysiology (ICCN) of the IFCN", svoltosi a Berlino (Germania).
- 11/2010 Partecipazione, in qualità di relatore, al simposio AISAL "Imaging e medicina translazionale" con una lettura dal titolo: "Tecniche avanzate di neuroimaging nello studio della demenza neurodegenerativa: dati clinici preclinici", svoltosi a Imola.
- 04/2010 Partecipazione, in qualità di relatore, al X° Congresso Nazionale di Psicogeriatrica', con una lettura dal titolo "Il declino cognitivo nell'anziano sano", tenutosi a Gardone.
- 04/2010 Partecipazione, in qualità di docente, al programma dell'evento formativo (accreditato ECM) intitolato "Le demenze; attualità... a 10 anni dal Cronos", tenutosi ad Ancona.
- 05/2009 Partecipazione, in qualità di docente, al corso intitolato "Mente e Movimento", con un intervento dal titolo "Tecniche avanzate di neuroimaging per lo studio del decadimento cognitivo secondario a patologia neurodegenerativa".
- 01/2009 Partecipazione, in qualità di docente, al simposio intitolato "Malattie neurodegenerative nuove prospettive di ricerca e intervento" con una lettura nell'ambito della sezione "Malattia di Alzheimer: attualità sul ruolo delle indagini clinico-strumentali", tenutosi a Roma.
- 10/2007 Relazione tenuta all'undicesimo annual meeting dell'ITINAD, con una lettura dal titolo "Advanced neuroimaging techniques applied to degenerative dementias".
- 05/2007 Partecipazione, in qualità di docente, al corso intitolato "Campus in Neuroriabilitazione", svoltosi a Roma presso la Fondazione Santa Lucia.
- 05/2007 Partecipazione, in qualità di relatore, al "Teaching Course" relativo allo "annual scientific meeting of the International Society of Magnetic Resonance in Medicine (ISMRM) del 2007, con una lettura dal titolo: "Volumetrics of aging".
- 05/2006 Partecipazione, in qualità di docente, al corso di aggiornamento intitolato "Il contributo della risonanza magnetica nello studio delle patologie neurologiche, organizzato da Biomedica, e tenutosi a Milano.
- 02/2005 Partecipazione, in qualità di docente, al corso intitolato "Le Demenze Associate a Parkinsonismo", organizzato dal Gruppo Multimedia e tenutosi alla Casa di Cura Santa Maria Castellana.
- 03/2004 Seminario su invito dal titolo : "Diffusion tensor MRI in neurological and psychiatric diseases" nella sessione "New Horizons session, Diffusion Tensor Imaging", dello 'European Congress of Radiology' (ECR), moderata dal Prof. D. LeBiahn. Tale contributo è stato filmato e reso disponibile on line negli archivi scientifici consultabili nel sito dello 'European Congress of Radiology' (ECR).

02/2004 Seminario su invito dal titolo: "Dati preliminari dello studio di correlazione MRI e profilo cognitivo in pazienti affetti da LBD, PD-demenza e malattia di Alzheimer (AD)" per la giornata (con accreditamento ECM) dal titolo "Esperienze a confronto", organizzata dal Gruppo di Studio sulla LBD e i Disturbi Cognitivi associati a Parkinsonismo.

1999 Partecipazione in qualità di relatore alla giornata degli Incontri scientifici mosan-MILANOSALUTE 1999, organizzata dall'Istituto Nazionale Neurologico Carlo Besta di Milano, intitolata "dalle neuroscienze di base alla pratica clinica" con un intervento dal titolo "Contributo delle tecniche di brain imaging alla definizione patologica del danno nervoso".

ORGANIZZAZIONE CONGRESSI

01/2018 Organizzazione della VIª edizione del Congresso Internazionale intitolato: "6th Winter Seminar on Dementia: Recent Advances in Clinical and Experimental Research on Dementia and Neurodegenerative Disorders", promosso dalla Associazione Autonoma Aderente alla SIN per le Demenze (SINDEM). Bressanone, 17-19 gennaio 2018.

01/2017 Organizzazione della Vª edizione del Congresso Internazionale intitolato: "5th Winter Seminar on Dementia: Recent Advances in Clinical and Experimental Research on Dementia and Neurodegenerative Disorders", promosso dalla Associazione Autonoma Aderente alla SIN per le Demenze (SINDEM). Bressanone, 18-20 gennaio 2017.

03/2016 Organizzazione del XI° Convegno Nazionale di SINDEM Società Italiana Demenze. Firenze 17-19 marzo 2016.

01/2016 Organizzazione della IVª edizione del Congresso Internazionale intitolato: "4th Winter Seminar on Dementia: Recent Advances in Clinical and Experimental Research on Dementia and Neurodegenerative Disorders", promosso dalla Associazione Autonoma Aderente alla SIN per le Demenze (SINDEM). Bressanone, 20-22 /01/ 2016.

01/2015 Organizzazione della IIIª edizione del Congresso Internazionale intitolato: "3rd Winter Seminar on Dementia: Recent Advances in Clinical and Experimental Research on Dementia and Neurodegenerative Disorders", promosso dalla Associazione Autonoma Aderente alla SIN per le Demenze (SINDEM). Bressanone, 23-24 gennaio 2015. Tale congresso è stato preceduto da un simposio intitolato "The Role of Cognitive Reserve in Dementia", organizzato con il supporto del Ministero Italiano della Salute mediante fondi di ricerca ottenuti dal Dott. Bozzali (grant:FIN 2009). Bressanone, 22 gennaio 2015

01/2014 Organizzazione della IIª edizione del Congresso Internazionale intitolato: "2nd Winter Seminar on Dementia: Recent Advances in Clinical and Experimental Research on Dementia and Neurodegenerative Disorders", promosso dalla Associazione Autonoma Aderente alla SIN per le Demenze (SINDEM). Bressanone, 23-24 gennaio 2014. Tale congresso è stato preceduto da un simposio intitolato "What Neuroimaging and Brain Stimulation tell us on Brain Dysfunction in Dementia", organizzato con il supporto del Ministero Italiano della Salute mediante fondi di ricerca ottenuti dal Dott. Bozzali (grant:GR 2008). Bressanone, 22 gennaio 2014.

07/2013 Organizzazione della "Summer School on dementias" promossa dalla Autonoma Aderente alla SIN per le Demenze (SINDEM). Roma, 3-5 luglio 2013.

01/2013 Organizzazione della prima edizione del Congresso Internazionale intitolato: "1st Annual Conference on Recent Progress in Clinical and Experimental Research on DEMENTIA", promosso dalla Associazione Autonoma Aderente alla SIN per le Demenze (SINDEM). Bressanone, 21-22 gennaio 2013.

PARTECIPAZIONE A CONGRESSI

Dal 1999, partecipazione annuale a numerosi congressi sia nazionali che internazionali in qualità di relatore, come si evince dall'elenco dei contributi scientifici propri e del proprio gruppo di ricerca elencati nella sezione "Pubblicazioni" di questo curriculum vitae ai punti C, D e E. Tali contributi includono comunicazioni orali, presentazioni di poster elettronici e tradizionali, letture su invito. Tra questi congressi, si segnala: Congresso annuale Società Italiana di Neurologia; Congresso annuale della SINDEM; Congresso dell'International Society for Magnetic Resonance in Medicine (ISMRM); ECTRIMS/ACTRIMS.

ATTIVITA' DIVULGATIVA

Nel corso degli anni, in qualità di esperto in neurofisiologia e neurologia, sono stato più volte contattato da quotidiani di tiratura nazionale, radio ed emittenti televisive per essere intervistato riguardo a temi incentrati sulla divulgazione di contenuti scientifici attraverso programmi od articoli dedicati.

Si riportano di seguito alcuni esempi:

- Intervento all'interno della puntata radiofonica della trasmissione 'Baobab l'albero delle notizie' del 4/4/2012. Materiale disponibile online all'interno nell'archivio RAI al sito: <http://www.rai.tv/dl/RaiTV/programmi/media/ContentItem-1389d536-97e8-4d10-82dc-76ba020e7046-radio1.html>
- Intervento all'interno della puntata della trasmissione televisiva 'Voyager' (condotta da Roberto Giacobbo) del 20/02/2012. Materiale disponibile online al sito: <http://www.youtube.com/watch?v=wOfG1RobCac>
- Intervento alla puntata televisiva di 'Elisir' del 18/2/2014 (condottata Michele Mirabella), disponibile online al sito: <http://www.rai.tv/dl/RaiTV/programmi/media/ContentItem-c540b6a0-0f6a-4428-8200-ef38dee7720a.html>

ELENCO DELLE PUBBLICAZIONI

PUBBLICAZIONI SU RIVISTE INTERNAZIONALI INDICIZZATE (ISI e SCOPUS)

1. Rovaris M, Bozzali M, Rodegher M, Tortorella C, Comi G, Filippi M. Brain MRI correlates of magnetization transfer imaging metrics in patients with multiple sclerosis. *J Neurol Sci* 1999;15;166(1):58-63. **Impact factor (1999) = 1.685**
2. Filippi M, Tortorella C, Bozzali M. Normal-appearing white matter changes in multiple sclerosis: the contribution of magnetic resonance techniques. *Mult Scler* 1999;5(4):273-282. **Impact factor (1999) = 2.154**
3. Bozzali M, Rocca MA, Iannucci G, Pereira C, Comi G, Filippi M. Magnetization transfer histogram analysis of the cervical cord in patients with multiple sclerosis. *AJNR Am J Neuroradiol* 1999;20(10):1803-1808. **Impact factor (1999) = 2.358**
4. Tortorella C, Viti B, Bozzali M, Sormani MP, Rizzo G, Gilardi MC, Comi G, Filippi M. A magnetization transfer histogram study of normal appearing brain tissue in multiple sclerosis. *Neurology* 2000;54(1):186-193. **Impact factor (2000) = 4.781**
5. Filippi M, Bozzali M, Horsfield MA, Rocca MA, Sormani MP, Iannucci G, Colombo B, Comi G. A conventional and magnetization transfer MRI study of the cervical cord in patients with multiple sclerosis. *Neurology* 2000;54(1):207-213. **Impact factor (2000) = 4.781**
6. Filippi M, Tortorella C, Rovaris M, Bozzali M, Possa F, Sormani MP, Iannucci G, Comi G. Changes in the normal-appearing brain tissue and cognitive impairment in multiple sclerosis. *J Neurol Neurosurg Psychiatry* 2000;68(2):157-161. **Impact factor (2000) = 2.846**
7. Ferini Strambi L, Bozzali M, Cercignani M, Oldani A, Zucconi M, Filippi M. Magnetization transfer and diffusion-weighted imaging in nocturnal frontal lobe epilepsy. *Neurology* 2000;54(12):2331-2333. **Impact factor (2000) = 4.781**
8. Rovaris M, Bozzali M, Santuccio G, Iannucci G, Sormani MP, Colombo B, Comi G, Filippi M. Relative contributions of brain and cervical cord pathology to MS disability: a study with MTR histogram analysis. *J Neurol Neurosurg Psychiatry* 2000;69(6):723-727. **Impact factor (2000) = 2.846**

9. Rovaris M, **Bozzali M**, Rocca MA, Colombo B, Filippi M. An MR study of tissue damage in the cervical cord of patients with migraine. *J Neurol Sci* 2001;183(1):43-46. **Impact factor (2001) = 1.986**
10. Filippi M, **Bozzali M**, Comi G. Magnetization transfer and diffusion tensor MR imaging of basal ganglia from patients with multiple sclerosis. *J Neurol Sci* 2001; 183(1):69-72. **Impact factor (2001) = 1.986**
11. Cercignani M, **Bozzali M**, Iannucci G, Comi G, Filippi M. Magnetisation transfer ratio and mean diffusivity of normal-appearing white and gray matter from patients with multiple sclerosis. *J Neurol Neurosurg Psychiatry* 2001;70 (3):311-317. **Impact factor (2001) = 3.024**
12. Rango M, **Bozzali M**, Prella A, Scarlato G, Bresolin N. Brain activation in normal subjects and in patients affected by mitochondrial disease without clinical central nervous system involvement: a phosphorus magnetic resonance spectroscopy study. *J Cereb Blood Flow Metab* 2001;21 (1):85-91. **Impact factor (2001) = 5.477**
13. **Bozzali M**, Franceschi M, Falini A, Pontesilli S, Cercignani M, Magnani G, Scotti G, Comi G, Filippi M. Quantification of tissue damage in AD using diffusion tensor and magnetization transfer MRI. *Neurology* 2001;57(6):1135-1137. **Impact factor (2001) = 5.212**
14. Rovaris M, **Bozzali M**, Santuccio G, Ghezzi A, Caputo D, Montanari E, Bertolotto A, Bergamaschi R, Capra R, Mancardi G, Martinelli V, Comi G, Filippi M. In vivo assessment of the brain and cervical cord pathology of patients with primary progressive multiple sclerosis. *Brain* 2001;124(Pt 12):2540-2549. **Impact factor (2001) = 7.407**
15. **Bozzali M**, Falini A, Franceschi M, Cercignani M, Zuffi M, Scotti G, Comi G, Filippi M. White matter damage in Alzheimer's disease assessed *in vivo* using diffusion tensor magnetic resonance imaging. *J Neurol Neurosurg Psychiatry*. 2002;72(6):742-746. **Impact factor (2002) = 2.939**
16. **Bozzali M**, Cercignani M, Sormani MP, Comi G, Filippi M. Quantification of brain gray matter damage in different MS phenotypes using diffusion tensor MR imaging. *AJNR Am J Neuroradiol* 2002;(6):985-988. **Impact factor (2002) = 2.463**
17. Cercignani M, **Bozzali M**, Iannucci G, Comi G, Filippi M. Intra-voxel and inter-voxel coherence in patients with multiple sclerosis assessed using diffusion tensor MRI. *J Neurol* 2002;249(7):875-883. **Impact factor (2002) = 3.345**
18. Rovaris M, **Bozzali M**, Iannucci G, Ghezzi A, Caputo D, Montanari E, Bertolotto A, Bergamaschi R, Capra R, Mancardi GL, Martinelli V, Comi G, Filippi M. Assessment of normal-appearing white and gray matter in patients with primary progressive multiple sclerosis: a diffusion-tensor magnetic resonance imaging study. *Arch Neurol* 2002; 59(9):1406-1412. **Impact factor (2002) = 4.336**
19. Filippi M, **Bozzali M**, Rovaris M, Gonen O, Kesavadas C, Ghezzi A, Martinelli V, Grossman RI, Scotti G, Comi G, Falini A. Evidence of widespread axonal damage at the earliest clinical stage of multiple sclerosis. *Brain* 2003; 126(Pt 2):433-437. **Impact factor (2003) = 7.967**
20. Rovaris M, Gallo A, Riva R, Ghezzi A, **Bozzali M**, Benedetti B, Martinelli V, Falini A, Comi G, Filippi M. An MT MRI study of the cervical cord in clinically isolated syndromes suggestive of MS. *Neurology* 2004;63(3):584-585. **Impact factor (2004) = 5.973**
21. **Bozzali M**, Falini A, Cercignani M, Baglio F, Farina E, Alberoni M, MD, Pezzulli P, Olivotto F, Mantovani F, Shallice T, Scotti G, Canal N, Nemni R. Brain tissue damage in dementia with Lewy bodies: an *in vivo* diffusion tensor MRI study. *Brain* 2005; 128(Pt 7):1596-1604. **Impact factor (2005) = 7.535**
22. Falini A, **Bozzali M**, Magnani G, Pero G, Gambini A, Benedetti M, Mossini R, Franceschi M, Comi G, Scotti G, Filippi M. A whole brain MR spectroscopy study from patients with Alzheimer's disease and mild cognitive impairment. *Neuroimage* 2005; 26(4):1159-1163. **Impact factor (2005) = 5.288**
23. **Bozzali M**, Filippi M, Magnani G, Cercignani M, Franceschi M, Schiatti E, Castiglioni S, Mossini R, Falautano M, Scotti G, Comi G, Falini A. The contribution of voxel based morphometry in staging patients with mild cognitive impairment. *Neurology* 2006; 67(3):453-460. **Impact factor (2006) = 5.690**
24. **Bozzali M**, MacPherson SE, Dolan RJ, Shallice T. Left prefrontal cortex control of novel occurrences during recollection: a psychopharmacological study using scopolamine and event-related fMRI. *Neuroimage* 2006; 33(1):286-295. **Impact factor (2006) = 5.559**
25. Carlesimo A, Serra L, Fadda L, Cherubini A, **Bozzali M**, Caltagirone C. Bilateral damage of the mammillo-thalamic tract impairs recollection but not familiarity in the recognition process: a single case investigation. *Neuropsychologia* 2007;45(11):2467-2479. **Impact factor (2007) = 3.630**
26. **Bozzali M**, Cherubini A. Diffusion tensor MRI to investigate dementias: a brief review. *Magn Reson Imaging* 2007; 25(6):969-977. **Impact factor (2007) = 1.486**

27. **Bozzali M**, Cercignani M, Baglio F, Scotti G, Farina E, Pugnetti L, Ashburner J, Nemni R, Falini A. Voxel-wise analysis of diffusion tensor MRI improves the confidence of diagnosis of corticobasal degeneration non invasively. *Parkinsonism Relat Disord* 2008; 14(5):436-439. **Impact factor (2008) = 1.907**
28. **Bozzali M**, Cercignani M, Caltagirone C. Brain volumetrics to investigate aging and the principal forms of degenerative cognitive decline: a brief review. *Magn Reson Imaging* 2008; 26(7):1065-1070. **Impact factor (2008) = 1.871**
29. MacPherson SE, **Bozzali M**, Cipolotti L, Dolan RJ, Rees JH, Shallice T. Effect of frontal lobe lesions on the recollection and familiarity components of recognition memory. *Neuropsychologia* 2008; 46(13):3124-3132. **Impact factor (2008) = 4.074**
30. Di Paola M, **Bozzali M**, Fadda L, Musicco M, Sabatini, U, Caltagirone C. Reduced oxygen due to high-altitude exposure relates to atrophy in motor-function brain areas. *Eur J Neurol* 2008;15(10):1050-1057. **Impact factor (2008) = 2.732**
31. Capuani S, Gili T, **Bozzali M**, Russo S, Porcari P, Cametti C, D'Amore E, Colasanti M, Venturini G, Maraviglia B, Lazzarino G, Pastore FS. L-DOPA preloading increases the uptake of borophenylalanine in C6 glioma rat model: a new strategy to improve BNCT efficacy. *Int J Radiat Oncol Biol Phys* 2008; 72(2):562-567. **Impact factor (2008) = 4.639**
32. Menghini D, Hagberg G, Petrosini L, **Bozzali M**, Macaluso E, Caltagirone C, Vicari S. Structural correlates of implicit learning deficits in subjects with developmental dyslexia. *Ann N Y Acad Sci* 2008;1145:212-221. **Impact factor (2008) = 2.303**
33. Fasano F, **Bozzali M**, Cercignani M, Hagberg GE. A highly sensitive radial diffusion measurement method for white matter tract investigation. *Magn Reson Imaging* 2009;27(4):519-530. **Impact factor (2009) = 2.026**
34. Baglio F, Blasi V, Falini A, Farina E, Mantovani F, Olivetto F, Scotti G, Nemni R, **Bozzali M**. Functional brain changes in early Parkinson's disease during motor response and motor inhibition. *Neurobiol Aging* 2011;32(1):115-124. **Impact factor (2011) = 6.634**
35. Clausi S, **Bozzali M**, Leggio MG, Di Paola M, Hagberg GE, Caltagirone C, Molinari M. Quantification of gray matter changes in the cerebral cortex after isolated cerebellar damage: a voxel-based morphometry study. *Neuroscience* 2009;162(3):827-835. **Impact factor (2009) = 3.292**
36. Cercignani M, Basile B, Spanò B, Comanducci G, Fasano F, Caltagirone C, Nocentini U, **Bozzali M**. Investigation of quantitative magnetization transfer parameters of lesions and normal appearing white matter in multiple sclerosis. *NMR Biomed* 2009;22(6):646-653. **Impact factor (2009) = 3.099**
37. Capuani S, Gili T, **Bozzali M**, Russo S, Porcari P, Cametti C, Muolo M, D'Amore E, Maraviglia B, Lazzarino G, Pastore FS. Boronophenylalanine uptake in C6 glioma model is dramatically increased by L-DOPA preloading. *Appl Radiat Isot* 2009;67(7-8 Suppl):S34-36. **Impact factor (2009) = 1.094**
38. Serra L, Cercignani M, Lenzi D, Perri R, Fadda F, Caltagirone C, Macaluso E, **Bozzali M**. Grey and white matter changes at different stages of Alzheimer's disease. *J Alzheimers Dis* 2010;19(1):147-159. **Impact factor (2010) = 4.261**
39. Lenzi D, Serra L, Perri R, Pantano P, Lenzi GL, Paulesu E., Caltagirone C, **Bozzali M**, Macaluso E. Single domain amnesic MCI: a multiple cognitive domains fMRI investigation. *Neurobiol Aging* 2011;32(9):1542-1557. **Impact factor (2011) = 6.634**
40. Serra L, **Bozzali M**, Cercignani M, Perri R, Fadda L, Caltagirone C, Carlesimo GA. Recollection and familiarity in amnesic mild cognitive impairment. *Neuropsychology* 2010;24(3):316-326. **Impact factor (2010) = 3.176**
41. Raz E, Cercignani M, Sbardella E, Totaro P, Pozzilli C, **Bozzali M**, Pantano P. Voxelwise regional investigation of white and grey matter in clinically isolated syndrome suggestive of multiple sclerosis. *Radiology* 2010;254(1):227-234. **Impact factor (2010) = 6.069**
42. Spanò B, Cercignani M, Basile B, Romano S, Mannu R, Centonze D, Caltagirone C, Bramanti P, Nocentini U, **Bozzali M**. Multiparametric MR investigation of the motor pyramidal system in patients with "truly benign" MS. *Mult Scler* 2010;16(2):178-188. **Impact factor (2010) = 3.929**
43. Basile B, Mancini F, Macaluso E, Caltagirone C, Frackowiak RS, **Bozzali M**. Deontological and altruistic guilt: Evidence for distinct neurobiological substrates. *Hum Brain Mapp* 2011;32(2):229-239. **Impact factor (2011) = 5.88**
44. Robinson G, Shallice T, **Bozzali M**, Cipolotti L. Conceptual proposition selection and the LIFG: neuropsychological evidence from a focal frontal group. *Neuropsychologia* 2010;48(6):1652-1663. **Impact factor (2010) = 3.949**

45. Koch G, Cercignani M, Pecchioli C, Oliveri M, Caltagirone C, Rothwell J, **Bozzali M**. In vivo definition of parieto-motor connections involved in planning of grasping movements. *Neuroimage* 2010;51(1):300-312. **Impact factor (2010) = 5.937**
46. Serra L, Perri R, Cercignani M, Spanò B, Fadda L, Marra C, Carlesimo GA, Caltagirone C, **Bozzali M**. Are the Behavioral Symptoms of Alzheimer's Disease Directly Associated with Neurodegeneration? *J Alzheimers Dis* 2010;21(2):627-639. **Impact factor (2010) = 4.261**
47. Scola E, **Bozzali M**, Agosta F, Magnani G, Franceschi M, Sormani MP, Cercignani M, Pagani E, Falautano M, Filippi M, Falini A. A diffusion tensor MRI study of patients with MCI and AD with a 2-year clinical follow-up. *J Neurol Neurosurg Psychiatry* 2010;81(7):798-805. **Impact factor (2010) = 4.791**
48. Gili T, Cercignani M, Serra L, Perri R, Giove F, Maraviglia B, Caltagirone C, **Bozzali M**. Regional brain atrophy and functional disconnection across Alzheimer's disease evolution. *J Neurol Neurosurg Psychiatry* 2011;82(1):58-66. **Impact factor (2011) = 4.764**
49. Raz E, Cercignani M, Sbardella E, Totaro P, Pozzilli C, **Bozzali M**, Pantano P. Gray- and white-matter changes 1 year after first clinical episode of multiple sclerosis: MR imaging. *Radiology* 2010;257(2):448-454. **Impact factor (2010) = 6.069**
